

CakeHub Seller Guide

This guide is for bakeries and home bakers who sell cakes on CakeHub. It takes you from signing up to getting paid.

On this page

1. [Getting started](#)
2. [Getting verified](#)
3. [The seller dashboard](#)
4. [Your store profile](#)
5. [Listing your cakes](#)
6. [Handling orders](#)
7. [Reviews](#)
8. [Subscription plans and the listing limit](#)
9. [Payouts: how you get paid](#)
10. [Settings and notifications](#)
11. [Troubleshooting](#)

1. Getting started

1. Open CakeHub and click **Continue with Google**. There is no password. Use the Google account you want to run the store from.
2. At first sign-in you are asked *"Tell us how you'll use CakeHub."* Choose **I sell cakes**.
3. Enter your **Business name** and your **WhatsApp number** (include the country code, for example +94 77 123 4567). Customers use this number to message you, so make sure it is the one you check.
4. Click **Continue**. You land on your seller dashboard.

Note: Your role is chosen once. If you pick **I'm buying cakes** by mistake, you cannot switch that account to a seller account.

Your store starts on the **free plan** and with **Pending verification** status. Work through [Getting verified](#) and [Your store profile](#) next.

The left menu has everything you need: **Dashboard, Listings, Orders, Reviews, Store Profile, Subscription, Payouts** and, at the bottom, **Settings**.

2. Getting verified

Verification is how CakeHub shows customers that your business is real. Verified stores get a **Verified** badge on their storefront and in search results, and only verified, open stores are eligible for the **Featured bakers** section on the home page.

Upload your documents

1. Go to **Store Profile** and scroll to **Verification documents**.
2. Choose the **Document type**:
 - **Business registration**
 - **Food safety certificate**
 - **Address proof**
3. Under **Upload file (PDF or image)**, choose a PDF, JPG or PNG (up to 10 MB), then upload it.
4. Repeat for each document you have.

What happens next

An admin reviews your store. You are told the result through a notification (and email, unless you turned that off):

CakeHub Seller Guide

Page 3 of 14

Result	What it means	What you do
Verified	Approved. The badge appears on your store.	Nothing. You are all set.
More information needed	The admin sent you a message saying what is missing. Your status stays <i>Pending</i> .	Read the notification and upload the extra documents.
Rejected	The admin declined verification and gave a reason .	Read the reason in your notification. Contact the platform administrators to discuss next steps.
Suspended	An admin suspended your store.	Contact the platform administrators.

Your current status is always shown as a badge at the top right of your dashboard.

Getting started

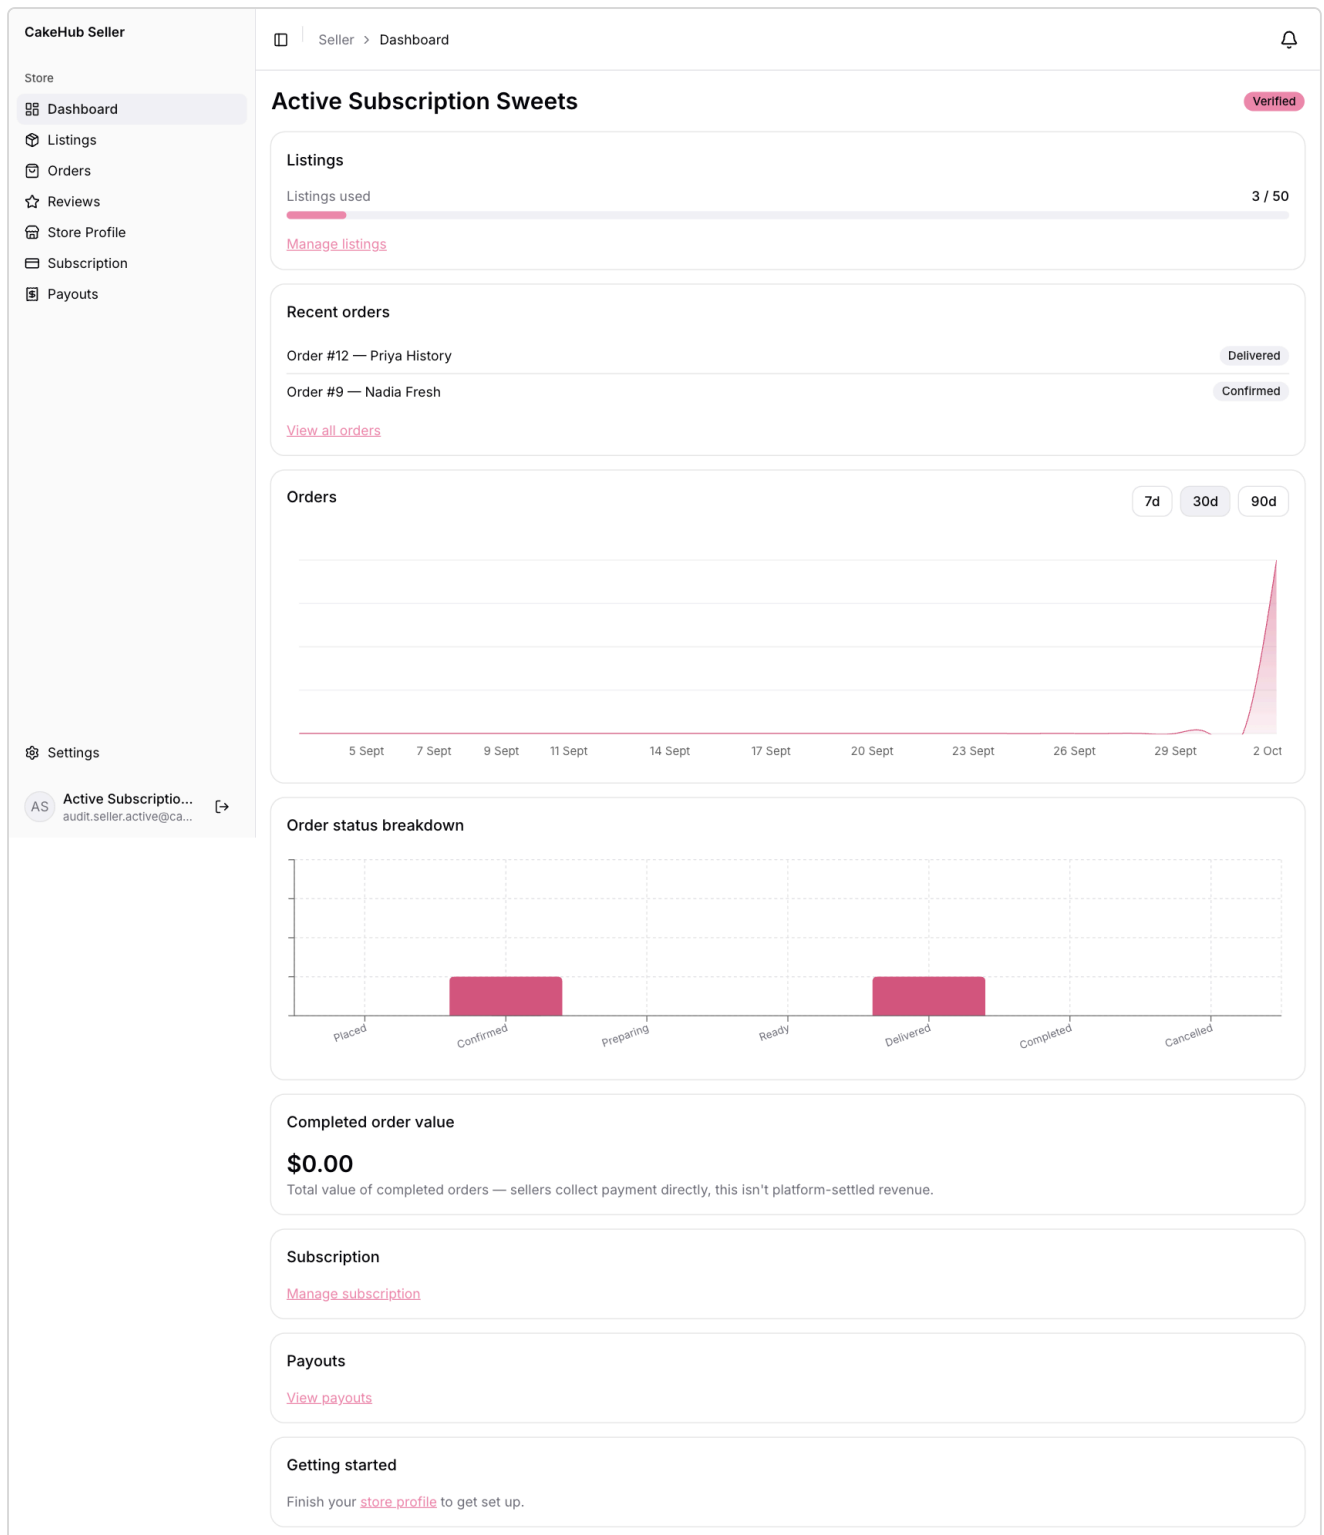

Finish your [store profile](#) to get set up.

3. The seller dashboard

Click **Dashboard** to see how your store is doing.

CakeHub Seller Guide

Page 4 of 14

- **Listings:** how many of your plan's listings you have used (for example 3 / 50). Click **Manage listings**.
- **Recent orders:** your latest orders with their status. Click **View all orders**.
- **Orders** chart, **Order status breakdown** and **Completed order value:** the sales analytics. Use **7d**, **30d** or **90d** to change the period. These appear only on plans that include analytics (Pro and above on the standard plans). On other plans you see "Order charts and trends are available on the Pro plan and above" with an **Upgrade your plan** link.
- **Subscription** and **Payouts:** shortcuts to those pages.

- **Getting started:** a reminder to finish your store profile.

4. Your store profile

Click **Store Profile** to control how customers see you.

- **Logo & cover photo:** choose an image for each. Use a clear logo and a bright cover photo of your best work.
- **Business name** and **WhatsApp number:** shown on your storefront. The WhatsApp number powers the **Contact on WhatsApp** and **Order via WhatsApp** buttons.
- **Address:** the address shown to customers.
- **Store location:** search for your address, or click and drag the pin on the map to your exact spot. Customers using **Near me** search find you by this location, so set it carefully. If you skip it, you will not appear in nearby searches.

Click **Save changes** when you are done. You will see *Saved*.

5. Listing your cakes

Click **Listings** to see everything you sell.

The screenshot displays the 'CakeHub Seller' interface. On the left is a sidebar with navigation links: Store, Dashboard, Listings (highlighted), Orders, Reviews, Store Profile, Subscription, Payouts, and Settings. The main content area is titled 'Seller > Listings' and features a bell icon in the top right. Below the title is a 'Listings' section with an 'Add product' button. A 'Usage' box shows 'Listings used' with a progress bar and '3 / 50'. Two filters are present: 'All categories' and 'All availability'. The listings are displayed as cards, each with an 'Edit' button and a 'Delete' link. The listed items are: 'Active Sub Custom Order Cake' (\$45.00 · In stock), 'Active Sub Vanilla Cupcakes' (\$35.00 · In stock), and 'Active Sub Chocolate Cake' (\$25.00 · In stock). At the bottom left of the sidebar, there is a user profile section for 'Active Subscriptio...' with an email address and a logout icon.

- The **Listings** counter shows how many listings you have used against your plan's limit.
- Filter by **category** or **availability** using the dropdowns.
- Each listing has **Edit** and **Delete**. Deleting asks you to confirm.
- A listing marked **Unpublished** is hidden from customers (see [the listing limit](#)).

Add a cake

1. Click **Add product**.

The screenshot shows the 'Add product' form in the CakeHub Seller interface. On the left is a sidebar with navigation links: Store, Dashboard, Listings (highlighted), Orders, Reviews, Store Profile, Subscription, Payouts, and Settings. The main content area has a breadcrumb trail: Seller > Listings > Add product. The form itself is titled 'Add product' and shows 'Listings used: 3 / 50'. It contains several sections: 'Name' with a text input; 'Description' with a larger text area; 'Base price' with a text input; 'Availability' with a dropdown menu currently set to 'In stock'; 'Categories' with a grid of checkboxes including Birthday, Custom, Eggless, Category 01, Cupcakes, Photo Cakes, Wedding, Vegan, and Anniversary; a 'Can't find your category? Add one' button and an 'Add category' button; and 'Size / flavor variants' with an 'Add variant' button. At the bottom of the form is a prominent pink 'Add product' button. The bottom of the sidebar shows a user profile for 'AS' with an 'Active Subscription' status.

2. Fill in the form:

- **Name and Description**
- **Base price:** the price of the cake before any option add-ons
- **Availability:** **In stock**, **Made to order**, or **Unavailable**
- **Categories:** tick at least one. Missing a category? Type a new name in **Can't find your category? Add one** and click **Add category**.
- **Size / flavor variants:** click **Add variant** for each option (for example *1kg — Chocolate*) and enter its **Price add-on**, the amount added to the base price. The first variant is the default.

3. Click **Add product**.

- ### 4. To add **photos**, open the listing again with **Edit**. The **Photos** section appears on the edit page. Upload JPG, PNG or WebP images (up to 20 MB each), and remove any with the remove button.

Every listing, published or not, counts toward your limit, so unpublishing a cake does not free up a slot. Delete a listing to free one.

When you reach your limit

When *used* equals your plan's limit, **Add product** is replaced by "*Listing limit reached — upgrade your subscription to add more.*" See [Subscription plans](#).

6. Handling orders

Click **Orders**. New orders from customers appear here, and you are notified when one arrives.

AS Active Subscriptio... audit.seller.active@ca... [→]

Seller > Orders

Status: All statuses | From: yyyy-mm-dd | To: yyyy-mm-dd

Active orders

Order #12 — Priya History Delivered

1 item · \$35.00 · 07/10/2026, 10:16:22

1× Active Sub Vanilla Cupcakes

Mark Completed

Order #9 — Nadia Fresh Confirmed

1 item · \$35.00 · 04/10/2026, 10:16:12

1× Active Sub Vanilla Cupcakes

Mark Preparing **Mark Cancelled**

- **Active orders** shows orders in progress. **History** shows finished ones.
- Use **Status**, **From** and **To** at the top to filter by status and pick-up/delivery date.
- Each order shows the order number, customer, items, total and the date and time the customer wants it.

Moving an order forward

Each order has buttons for the next step. Press them in order:

Current status	Buttons you can press
Placed	Mark Confirmed, Mark Cancelled
Confirmed	Mark Preparing, Mark Cancelled
Preparing	Mark Ready, Mark Cancelled
Ready	Mark Delivered
Delivered	Mark Completed
Completed / Cancelled	none, the order is closed

The customer is notified at every change.

Payment must be approved first

You cannot change an order's status until an admin has approved the customer's payment. Until then the buttons are replaced by a badge:

- **Awaiting payment** means the customer has not uploaded a slip yet.
- **Awaiting payment verification** means a slip was uploaded and is waiting for an admin.

This applies to every status button, including **Mark Cancelled**. Don't start baking before the order moves to a status you can change.

Tip: For custom requests, message the customer on WhatsApp before you confirm.

Completing an order

Press **Mark Completed** after the customer has received the cake. This does two things: the customer can now review the order, and a **payout** for the order total is created for you (see [Payouts](#)).

7. Reviews

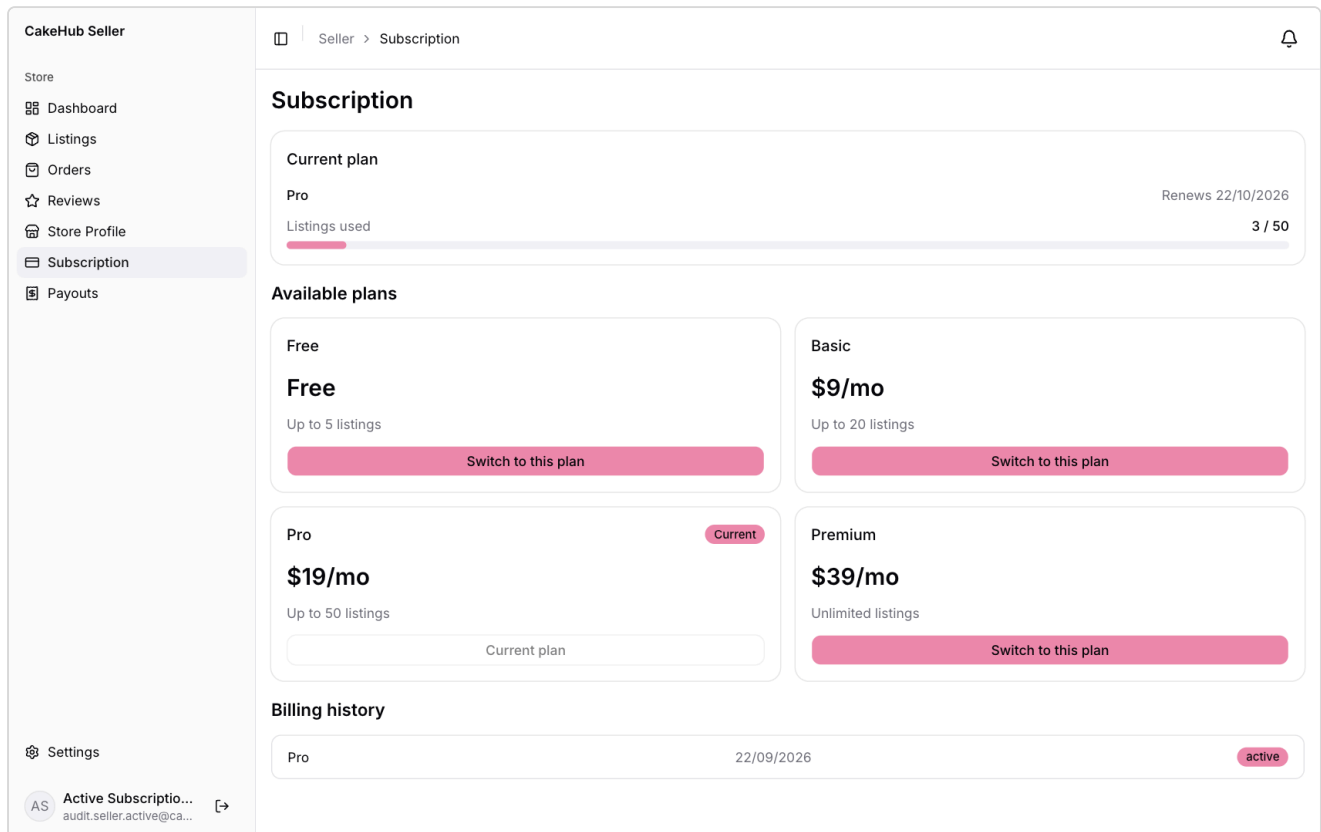

Click **Reviews** to see what customers have said. Your **average rating** is shown at the top and is also displayed on your storefront.

To reply, open a review, write in **Write a response...** and submit. You can respond once per review, and your **Your response** appears publicly under the customer's review. Keep replies polite and brief.

8. Subscription plans and the listing limit

Your **plan** decides how many cakes you can list, and whether you get sales analytics. Every seller starts on the **Free** plan.

Click **Subscription**.

The screenshot shows the 'Subscription' page for a 'CakeHub Seller'. The page is divided into three main sections: 'Current plan', 'Available plans', and 'Billing history'. The 'Current plan' section shows the 'Pro' plan, which renews on 22/10/2026 and has 3 out of 50 listings used. The 'Available plans' section lists four plans: 'Free' (up to 5 listings), 'Basic' (\$9/mo, up to 20 listings), 'Pro' (\$19/mo, up to 50 listings, current plan), and 'Premium' (\$39/mo, unlimited listings). The 'Billing history' section shows a single entry for the 'Pro' plan, active since 22/09/2026.

Plan	Price	Listings	Sales analytics
Free	Free	Up to 5	No
Basic	\$9 / month	Up to 20	No
Pro	\$19 / month	Up to 50	Yes
Premium	\$39 / month	Unlimited	Yes

- **Current plan** shows your plan, its **renewal date** and your listings used (for example 3 / 50).
- **Available plans** lists every plan, with its price and listing limit.
- **Billing history** lists your past and current subscriptions with their status.

The plans on CakeHub are set by the administrators and can change. The standard set is:

Plan	Price	Listings	Sales analytics
Free	Free	Up to 5	No
Basic	\$9 / month	Up to 20	No
Pro	\$19 / month	Up to 50	Yes
Premium	\$39 / month	Unlimited	Yes

Switching to a paid plan

1. On the plan you want, click **Switch to this plan**.
2. Confirm in the **Switch to ... ?** dialog.

3. The **Pay for your subscription** step appears. Transfer the plan price to one of the CakeHub bank accounts, choose the account you paid into, optionally enter a **Bank reference**, upload your **Payment slip** and click **Submit payment slip**.
4. An admin checks your slip. Your new plan shows as **Pending** until the payment is approved. Then it becomes **Active**, your listing limit goes up straight away, and you get a notification.

Your plan is billed each month or year (depending on the plan). The renewal date is shown under **Current plan**.

When a plan expires or you move to a smaller plan

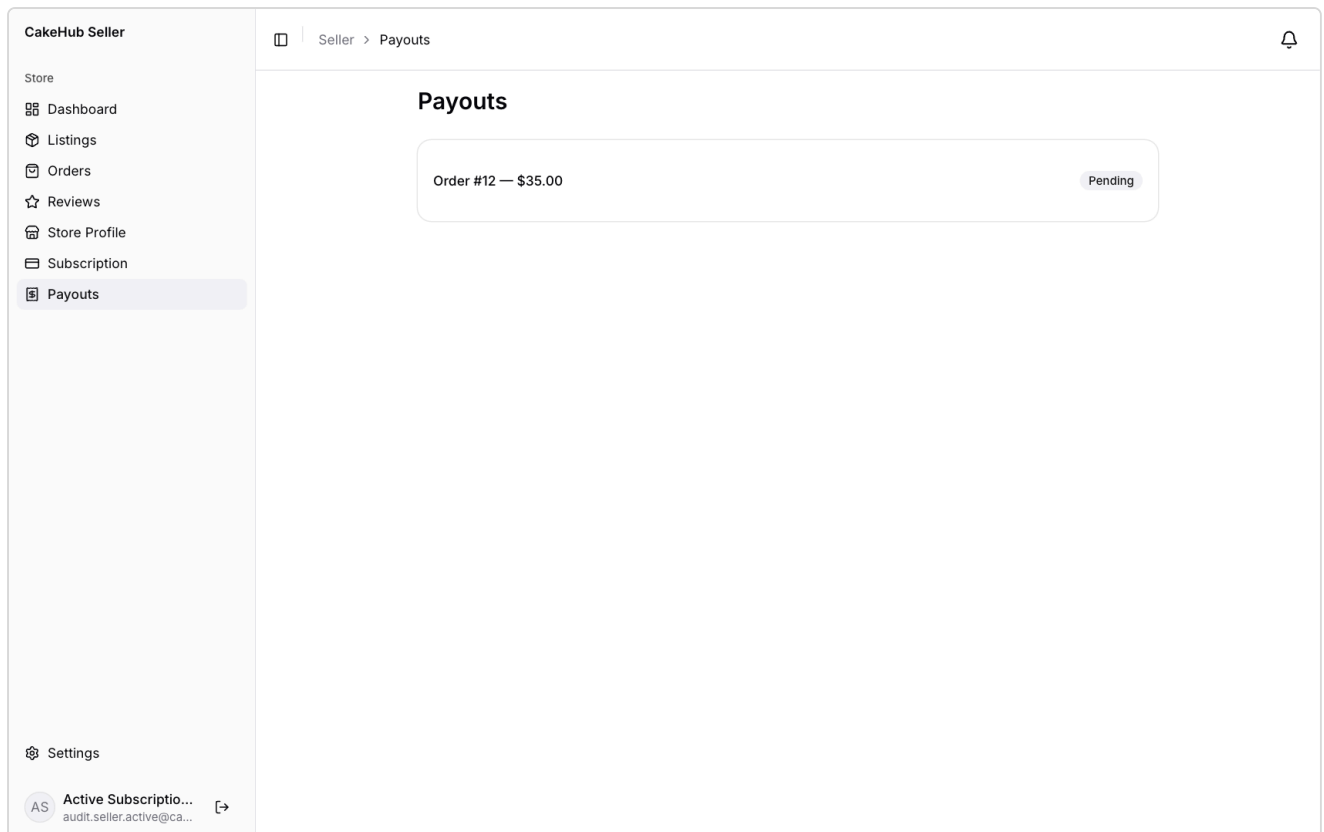

A daily check expires plans that have run out. When that happens, or when you move to a plan with a lower limit, you are told by notification and:

- Your listing limit becomes the Free plan's limit.
- If you now have more live cakes than the limit allows, the **most recently created** extra listings are **hidden** (shown as *Unpublished*) rather than deleted. They stay in your account.

Hidden listings count toward your limit and cannot be re-published from the seller panel. If you need hidden cakes visible again after upgrading, contact the platform administrators. To free up space for new cakes, delete listings you no longer need.

9. Payouts: how you get paid

Customers pay CakeHub, not you. When you mark an order **Completed**, CakeHub creates a **payout** for that order's total, then pays you by bank transfer.

1. **Add your bank details** under **Settings** → **Payout details** (bank name, account holder name and account number). Do this first so the platform knows where to send money.
2. Click **Payouts** to see one entry per completed order with its status:
 - **Pending:** the order is completed and the admin has not paid you yet.
 - **Paid — awaiting your confirmation:** the admin has transferred the money and uploaded a transfer slip.
 - **Confirmed:** you confirmed you received it.
3. When a payout shows *Paid — awaiting your confirmation*, click **View payment slip** to see the transfer receipt. Check your bank account, then click **Confirm received**.

Only confirm once the money is actually in your account.

10. Settings and notifications

Click **Settings** at the bottom of the left menu.

Deactivate account

- **Notification preferences:** choose whether you also receive email for **Order status updates**, **Seller verification updates** and **Subscription status updates**. In-app notifications (the bell icon) always continue.
- **Payout details:** the bank account you want to be paid into. Click **Save payout details**.
- **Deactivate account:** signs you out and blocks sign-in until the platform administrators reactivate it. Use it only if you really want to stop.

11. Troubleshooting

Problem	What to do
I can't press any status button on an order	The customer's payment has not been approved yet. Wait for it to move out of <i>Awaiting payment (verification)</i> .
Add product is missing	You have reached your plan's listing limit. Delete a listing or switch to a bigger plan.
My cakes disappeared from customers' view	Your plan expired or you moved to a smaller plan. Check Listings for <i>Unpublished</i> badges, and contact the platform administrators to have them shown again after you upgrade.
I don't appear in "Near me" searches	Set your Store location pin in Store Profile and save.
My subscription is still <i>Pending</i>	An admin has not approved your payment slip yet.
I was rejected	Read the reason in your notifications and contact the platform administrators.
I don't see sales charts on my dashboard	Charts are part of plans that include analytics (Pro and above on the standard plans).
